

Acceptable Use Policy (AUP)

Rules and regulations governing the use of electronic networked resources and internet safety

1. Students must be respectful in their use of technology at all times. Any use of technology that bullies, threatens, harasses, endangers, or attacks another person or persons may be disciplined under all applicable regulations and laws*.

REPORT BULLYING TO AN ADMINISTRATOR

2. Students may connect any electronic device to the *APS.Guest* network. The password is *knowledge***.
3. Students may use devices for learning when permitted by the teacher.
4. Students must silence, turn off, and/or put away devices when directed.
5. Students have no expectation of privacy while using the network, or while in possession of a device on school property.
6. Students may not disable or work around the content filter; or tamper with, copy, download, or attempt to install or execute files without authorization.
7. A principal's designee may take and search any device in student possession with reasonable suspicion a student has violated this policy. Devices that have been taken or confiscated may be held by an administrator.
8. Students must cite sources used in the course of academic research and writing, and obtain permission for their use when appropriate.
9. Students that mishandle, damage, or destroy APS property are subject to disciplinary action and referral to police, and may be responsible for paying for the property.

* For more info, see APS Policy Implementation Procedures 25-1.17 and 45-2.

** This school-wide statement serves as authorization under APS PIP 45-2, §2, ¶13.

Questions about the AUP may be directed to the Instructional Technology Coordinator.
